### A selection of Murphy's laws

**Law of Gravity** - Any tool, nut, bolt, screw, when dropped, will roll to the least accessible corner.

**Law of Probability** - The probability of being watched is directly proportional to the stupidity of your act.

**Law of Random Numbers** - If you dial a wrong number, you never get a busy signal and someone always answers.

**Variation Law** - If you change lines (or traffic lanes), the one you were in will always move faster than the one you are in now (works every time).

**Law of Close Encounters** - The probability of meeting someone you know increases dramatically when you are with someone you don't want to be seen with.

**Law of Biomechanics** - The severity of the itch is inversely proportional to the reach.

**The Coffee Law** - As soon as you sit down to a cup of hot coffee, your boss will ask you to do something which will last until the coffee is cold.
